And with VersaLink Devices, more capabilities means added convenience, not more complexity. Leading-edge scanning functionality and automation of physical and digital workflows allow you to scan, digitize and route information without missing a beat, reducing errors and saving time. Furthermore, industry-specific apps for education, healthcare, legal and more help you stay plugged in and productive.

HELLO, DIGITAL RESILIENCE

Translator. Proofreader. Form checker. Do-it-all digitizer. VersaLink makes it easy to tackle the hardest challenges. Stay ready with access to an expanding portfolio of cloud-hosted apps and the ability to tailor solutions for your specific needs through the Xerox Partners program.

And with access to Xerox® Workflow Central Platform, a cloud-based solution that takes the guesswork out of converting physical and digital files into usable formats right from the VersaLink user interface, even complicated work processes are easy. It helps you get the most out of your Workplace Assistant, so you can stay productive and secure from the office or on the move.

PROACTIVE SECURITY YOU CAN COUNT ON

VersaLink's multi-layered protection safeguards all system components. A comprehensive range of proactive security features stop even the most sophisticated security threats where they start, preventing malicious attacks, proliferation of malware, unauthorized access or changes and breaches that lead to downtime.

To simplify security event reporting and management, VersaLink Devices can integrate with Security Information and Event Management (SIEM[1]) Tools. McAfee® whitelisting constantly monitors, detects and blocks threats in real time. And automated security responses provide invaluable time savings and peace of mind.

SUPERIOR IMAGE QUALITY

With high-resolution output of 1200 x 1200 dpi, the VersaLink takes your documents to the next level with sharp image quality. Rich blacks and smoother shades give your communications impact, while crisp text enhances clarity and legibility.

Getting up to speed is easy with a tablet-like touch screen that balances simplicity and time-saving efficiency. The familiar, intuitive user interface (UI) guides you through tasks, eliminating extra steps. And the ability to personalize the UI empowers you to work the way you want.

Mobility features, like Wi-Fi Direct, take the hassle out of printing directly from your favorite mobile devices. Near Field Communication (NFC) lets you authenticate with a smartphone to connect in seconds, and the Xerox® Quick Link app enables you to quickly connect and print without IT support, reducing the burden on IT teams.

And with VersaLink Devices, more capabilities means added convenience, not more complexity. Leading-edge scanning functionality and automation of physical and digital workflows allow you to scan, digitize and route information without missing a beat, reducing errors and saving time. Furthermore, industry-specific apps for education, healthcare, legal and more help you stay plugged in and productive.

And with access to Xerox® Workflow Central Platform, a cloud-based solution that takes the guesswork out of converting physical and digital files into usable formats right from the VersaLink user interface, even complicated work processes are easy. It helps you get the most out of your Workplace Assistant, so you can stay productive and secure from the office or on the move.

PROACTIVE SECURITY YOU CAN COUNT ON

VersaLink's multi-layered protection safeguards all system components. A comprehensive range of proactive security features stop even the most sophisticated security threats where they start, preventing malicious attacks, proliferation of malware, unauthorized access or changes and breaches that lead to downtime.

To simplify security event reporting and management, VersaLink Devices can integrate with Security Information and Event Management (SIEM[1]) Tools. McAfee® whitelisting constantly monitors, detects and blocks threats in real time. And automated security responses provide invaluable time savings and peace of mind.

SUPERIOR IMAGE QUALITY

Color is the difference between communications that fall flat and those with real impact. With high-resolution output of 1200 x 2400 dpi, the VersaLink takes your documents to the next level with sharp image quality.

xerox™

Walk-up simplicity meets production-level capability in one compact device.

It's a copier. It's a scanner. It's a full-featured press capable of production-level performance. Meet the PrimeLink® B9100 Series—the incredibly reliable, endlessly configurable family of black and white printers from Xerox.

THE PRIME ADVANTAGE

The Xerox® PrimeLink® B9100 Series Copier/Printer is designed to support modern office workgroups and in-plant print shops with the widest breadth of capabilities on the market.

- A **compact, high-performance** configuration small enough to place near your work-group—but configurable enough to handle a full range of **black and white applications.**
- A fast single-pass, **dual-head color scanner** copies or converts pages to widely used digital formats at speeds up to 270 images per minute (ipm).
- Access to **Xerox App Gallery** right from the user interface, where you'll find cloud-connected apps to automate complex, time-consuming tasks for business, education, healthcare, and more.

- Optional **Xerox® EX B9100 Series Print Server powered by Fiery®** provides increased efficiency, automation, advanced job setup, and other performance-boosting features to help you get more done, faster.
- Integrated security features at the machine and over the network ensure **data safety and compliance** with strict, industry-specific standards like HIPAA and FIPS 140-2.

REAL POSSIBILITIES

Opportunities are endless with PrimeLink. The same technologies that drive image quality and reliability in Xerox® Production Presses are adapted to its compact footprint.

- Xerox-developed **VCSEL print technology** uses 32 lasers to produce true high def (2400 x 2400 dpi) text and images, consistent print densities, and neutral grays.
- Our new **EA-Eco LGK toner** produces rich blacks, more consistent, smoother shades of gray, and better readability with its low-gloss matte finish.
- Under-the-hood monitoring and automated toner density adjustments with our **Simple Image Quality Adjustment (SIQA)** for defect-free output.
- **Automated technologies** keep sheets on track at high speeds—even with heavier, lighter, or longer stocks—reducing jams and ensuring output accuracy.
- **Save profiles** for future use with the same stocks.
- Digital **Image Registration Control Technology (IReCT)** measures each sheet position as it runs through the printer—making precise corrections digitally in real time for **ultra-high precision registration.**

PRODUCTION VERSATILITY

With a full range of feeding, stacking, and finishing options, PrimeLink takes you anywhere—from office to entry-level production and beyond.

- **Insert color covers,** pages, and other pre-printed material post-print, pre-finishing for added application variety and productivity.
- Print everything from **polyester vinyl window clings to extra-long-sheet (XLS)** banners, book jackets, calendars, and more up to 26"/660 mm in length.
